EDUCATION

Pandit Deendayal Energy University, Gandhinagar

2023 – Present

B.Tech in Computer Engineering — CGPA: 9.54

Aksharjyoti High School, Surat

2022 – 2023

Class XII Science: 99.77 Percentile

Shree Sharda Vidhyamandir, Surat

2020 – 2021

Class X: 99.73 Percentile

TECHNICAL SKILLS

Programming Languages: C++, C, Python, JavaScript

Frameworks: Node.js, ReactJS, ExpressJS, Tailwind CSS

Cloud/Databases: MySQL, MongoDB

Soft Skills: Analytical Thinking, Teamwork

Relevant Coursework: Data Structures and Algorithms, OOP, Operating Systems, Database Management Systems

Areas of Interest: Data Science, Backend Development, Data Analytics

PROJECTS

MediSearchApp

Feb 2026 – April 2026

- Developed a web-based platform that allows patients to search for affordable generic alternatives to expensive brand-name medications.
- Streamlined the medication search experience by integrating a drug database, making essential healthcare more accessible and cost-effective.
- Tools: JavaScript, ReactJS, NodeJS

Kidney Stone Detection Using CNN

Jan 2026 – Feb 2026

- Engineered a deep learning-based diagnostic tool using Convolutional Neural Networks (CNN) to automate the identification of kidney stones in medical CT scans.
- Implemented comprehensive image preprocessing and data augmentation pipelines to significantly enhance model accuracy and diagnostic reliability.
- Tools: Python, Jupyter Notebook, TensorFlow/Keras

ACHIEVEMENTS & CERTIFICATIONS

- **Python for Data Science, AI & Development** – IBM
- **Database Structures and Management with MySQL** – Meta
- **Interactivity with JavaScript** – University of Michigan
